## IMPORTANT UPDATES FOR AOs

### Login and Password Info

- There has been some confusion about AO log-ins and passwords for C-ID
- Several AOs have been contacted by C-ID staff recently to update the correct AO data for our tech staff
- **IF** there is an **AO change** on your campus, it is important to contact the C-ID office right away so access to C-ID will not be compromised
- **The AO user name for course submissions MUST ALWAYS be through the school name**
- AOs may have an additional user name and password given to them by the C-ID staff so they can participate in the course descriptor **review forums**
- AOs can change their passwords at any time (from the one given them initially by C-ID) by clicking on the “Edit Profile” option

### AO Training Power Point

- A power point training program is in the final stages of development
- We hope to make this available on the CIAC website as well as the AO portal of the C-ID website
- A reminder that the AO portal on the website also contains a “**Guide to Submitting Course Outlines for Review**”

### Questions??? Comments??? e-mail [info@c-id.net](mailto:info@c-id.net)
